Public Office is a Sugar Trust. New York Sun (Dem.): The change in the sugar schedule which postpones the dates of its operation from July 1, 1891, to January 1, 1865, transfers from the

treasury of the United States to the treasury of the sugar trust a sum of money estimated at thirty millions of dollars. Therty millions are the tigures used by competent authorities in estimating the less of revenue to the government, and the gram to the sugar trust, by this single alteration in the tariff bill as reported by the senate finance committee. The deliberate, detiant, unparalleled sacrifice of \$30,000,000 of public revenue for the exclusive benefit of a private interest will always stand as the most conspicuous detail of the gigantic scandal which is now making

history for the Cleveland administra-

Marriage and Divorce.

Twenty two states forbid by law the marriage of step children with their step parents. A greater number of widowers remar

ry in Spain than in any other country in Europe. In no country has the marriage rate declined so greatly in recent years as in

Ireland. In almost every country the greater number of divorces is granted at the petition of the wife.

Seven tenths of the marriages in every country take place between the ages of 20 and 20.

During the last twenty years in England there were 4,872,000 marriages and 6,587 divorces. In Prussia 18 and 14 are legal ages at

which men and women may contract a matrimonial alliance. The English marriage ceremonies are of three kinds-by banns, by license, or

before a registrar. Ireland has the greatest number of unmarried women between 15 and 45 of any country in Christendom.

In Cochin, China, the breaking of pair of chapsticks in the presence of the couple is a legal form of divorce. In Siam the first wife may be divorce ed, but cannot be sold; the other wives

may be both sold and divorced. Little Denmark is great in the matter of divorce, there being thirty seven divorces to every 1,000 marriages. In Ohio a divorce was recently grant ed because "the defendant pulled this

plaintiff out of bed by his whiskers." "Many of the citizens of Ramsville Indiana are never without a bottle of Chamberlain's Cough Remedy in the house," says Jacob Brown, the leading merchant of the place. This Remedy has proven of so much value for colds, roup and whooping cough in children that few mothers who know its worth are willing to be without it. For sale by Clark O. Proud.

What We Eat. The English spend every year £23,000, 000 for sugar to saceten their food; the people of this country \$100,000,000. During the strawberry season this year the express companies carried to Chicago 200,000 boxes of berries every day. Our meat, bread and vegetables were last year flavored with 9,000,000 barrels

of salt, fer which he paid \$4,000,000. Over 900,000 pine apples were last year shipped from Florida to New York, not to mention those sent elsewhere. The cows of Belgium give for the bene fit of their owners milk and cream which

yield over 7,000 tons of butter per an-The rural youth and restaurant fre quenters of this country lubricate their cakes with 29,000,000 gallons of molas-

It is estimated that 40,000 tens of cu cumbers are raised and eaten within the limits of the United States every year It is estimated that every American drinks a pint of water a day, which makes the daily consumption 8,125,000

It is estimated that six tons of baking powder are daily used in this country in the manufacture of the staff of life. France and Spain produce 93,000 tons N. L. PIERCE. of sardines every year, which are mostly

onsumed by England and America. In addition to our home-grown sugar we last year imported and consumed 3, 550,000,000 pounds of the foreign article The farmers and stock raisers of this country produce 30 per cent of the world's grain supply and 33 per cent of

The people of Chicago last year wash ed down their food with 2,634,860 bar rels of beer, while the city of St. Louis manager to quench its thirst with 1,849, 282 barrels and New York required 4,

A paper which should interest all thinking women, particularly mothers is Mrs. Alzina Parsons Stevens' discus sion of "The Child, the Factory and the State" in the June Arena, Mrs. Stevens is the Assistant Inspector of Factories of the State of Illinois, and she has all the facts at her fingers' ends and knows what she is writing about. The pacture she shows -- a plain statement of statistics of disease and misery and slave-wages and inscenre employment should make some impression upon the minds of these who have had happy childhoods and strive to secure happiness for their own little ones.

I have two little grand children who are teething this bot summer weather and are troubled with bowel complaint. I give them Chamberlain's Colic, Cholera and Diarrhoea Remedy and it acts like a charm. I earnestly recommend it for children with bowel troubles. I was myself taken with severe attack of bloody flux, with cramps and pains in my stomach, one third of a bottle of this remedy cared me. Within twenty four hours I was out of bed and doing my house work. Mrs. W. L. Dunagan, DAVIS SEWING MACHINE CO. Bon-aqua, Hickman Co., Tenn. For sale by Clark O. Proud.
